Curb Extension

E 9th St/SR-32 and SR-99S On-ramp are part of a traffic circle interchange. Two one-way lanes travel across the interchange, of which, one lane runs around the interchange in a traffic circle. Pedestrian crossings are located across E 9th St, SR-99S on-ramp and the right-turn lane leading to the on-ramp. A pedestrian crossing sign is posted on the acceleration lane. Sidewalks line both sides of E 9th St. Sidewalk on one side of the road is buffered by trees. Small median islands for pedestrian access are located separating channelized right-turn lanes from the through lanes. Commercial businesses surround the intersection.
